Education

B.S. in Data Science and Applications

Indian Institute of Technology Madras

CGPA: 6.85

2023 – Present

B.Tech in Information Technology

College of Technology, Pantnagar

CGPA: 7.4

2022 – 2026

Senior Secondary (Class XII)

St. Joseph Convent School

92%

2021

High School (Class X)

USR Indu Inter College

92%

2019

Experience

Interviewkit.ai

Product Analyst Intern

(Remote)

April 2026 – June 2026

- **Product & Feature Development:** Collaborated directly with the founder on product strategy, feature planning, and execution while improving platform workflows and user engagement systems.
- **REST API & Recommendation Module:** Built a REST API editor and an intelligent job recommendation module using keyword extraction, structured filtering, and profile-matching techniques.
- **Interview Q&A System:** Developed a resume-based system capable of auto-generating personalized technical interview questions and detailed model answers.

CrackNonTech

Analyst Fellowship

May 2026 – June 2026

- **Business Strategy:** Studied **profitability analysis**, **market entry frameworks** and **cost-benefit evaluation** through case studies, mentor-led sessions, industry scenarios and group problem-solving.
- **Analytical Tools:** Sharpened **SQL querying**, **Python scripting** and **guesstimate** skills to model business problems, estimate market sizes and present structured data-driven strategic recommendations.

Projects

YouTube Trending Data Pipeline on AWS

[GitHub](#)

- **Pipeline Design:** Built a fully **automated end-to-end data pipeline** using **AWS S3**, **Lambda** and **Glue** with the **YouTube Data API** to continuously ingest, clean, transform, partition and store data.
- **Architecture & Orchestration:** Implemented **Medallion Architecture** with **Bronze**, **Silver** and **Gold** layers and **AWS Step Functions** for reliable orchestration, scheduling, retry logic, alerts and monitoring.

Flight Price Prediction using AWS SageMaker

[GitHub](#)

- **End-to-End ML Pipeline:** Built a complete flight price prediction system on **AWS SageMaker**, covering data preprocessing, feature engineering, model training and hyperparameter tuning using **XGBoost** with **Bayesian optimization** via SageMaker's **HyperparameterTuner**.
- **Feature Engineering & Deployment:** Engineered features from raw flight data (airline, route, timestamps, duration) using advanced **scikit-learn Pipelines**, **FeatureUnion** and custom transformers; deployed a **Streamlit** web application to **Streamlit Cloud** for real-time price predictions.

Ola Data Analytics End-to-End Project

[GitHub](#)

- **Data Analysis:** Analyzed **ride booking datasets** using **SQL**, **Excel** and **Power BI** to surface insights on ride demand, peak hours, revenue, driver ratings, vehicle types and cancellations.
- **Dashboard & Reporting:** Built **interactive Power BI dashboards** with **KPI cards**, **slicers**, **drill-throughs** and **trend charts** to monitor operations and enable data-backed decisions across all business functions.

Technical Skills

- **Languages:** C++, Python, SQL
- **BI & Analytics:** Excel, Power BI
- **Cloud:** AWS
- **ML:** Machine Learning

Position of Responsibility

Convocation Digital Card Team Lead

- **Team Leadership:** Led the end-to-end **digital invitation** and **QR-based security verification system** for the university convocation, coordinating a cross-functional team across design, dev and operations.
- **Cost Impact:** Eliminated paper-based manual workflows and contributed to **Rs. 1.5 lakh in cost savings** by deploying a scalable digital check-in system with real-time entry validation and audit logs.

Achievements

- **GATE:** Cleared **GATE CSE 2026** and **GATE DA 2025** with **94.3 percentile** and **86 percentile** respectively, qualifying among the top rankers in highly competitive national-level exams.
- **EdTech Initiative – Pantnagar Pathshala:** Built and scaled [Pantnagar Pathshala](#), an EdTech platform for Pantnagar entrance exam preparation, alongside an associated [YouTube channel](#) that crossed **1,000+ subscribers**.
- **Academic & Creative:** Secured **2nd Position** in the Shutterbug Short Film Competition and achieved **100/100 in Mathematics** in Class X Boards, showcasing both analytical and creative strengths.
- **Freelance Creative Work:** Independently delivered **video editing** and **thumbnail design** for multiple YouTube creators and branding clients, producing high-quality content that grew channel engagement.
